# Heli-Hiking Summer Adventure in British Columbia with CMH

*Donated by Canadian Mountain Holidays*

This isn't hiking as you've ever known it! These moments don't exist anywhere else in the world. CMH summer experiences, all accessed by helicopter, are bucket-list adventures that move your body and mind through spectacular wilderness landscape of alpine meadows, lakes, and glaciers.

Two of you will spend three nights at one of three stunning summer locations: CMH Bugaboos, CMH Cariboos or CMH Bobbie Burns. Your trip starts in Banff, Alberta. CMH meets you at Banff Park Lodge where you will be transferred to the CMH helipad. From there, you will be flown up to your chosen lodge where they'll outfit you with all the necessary hiking equipment. Hiking possibilities are endless: awe-inspiring ridge walks high above deep river basins, meadows in glorious wildflower bloom and crystalline glacial lakes that provide a refreshing dip for some hardy hikers.

The CMH heli-accessed hiking program takes guests and their professional guides directly into the high country, with endless alpine vistas extending to the horizon. The pace is tailored based on individual wants and needs.

Trips can be adapted to fit the needs of individuals with mobility challenges and even those in wheelchairs. Each day offers the chance to heli somewhere different, with exclusive access. Groups might get dropped off in an alpine meadow and hike up to a summit, on a glacier, or at the beginning of an exhilarating via ferrata.

CMH's iconic mountain lodges, with their creature comforts and attention to detail, are your basecamp for adventure. You'll enjoy three meals per day – a chef-prepared breakfast and dinner at the lodge, plus packed lunches, and après-hiking snacks.
